以下为本期男主播朗读的全部英文原文（共 6 节：Section 1–6），逐节配中文翻译。

1 Section 1

Hello, young explorers, and welcome back to Michael's Morning Listening! This is our twelfth show together! Today we fly to a zoo in Berlin（柏林）, where two birthday girls share one very cold cake. Then we tiptoe into a forest, where the trees are **whispering**（低语） under the ground. Let's go!

你好，小小探险家们，欢迎回到 Michael 的早听晚读！这是我们在一起的第十二期节目啦！今天我们先飞到柏林的一家动物园，两位过生日的小寿星要分享一块超冷的蛋糕。然后我们踮起脚尖走进一片森林，那里的树木正在地底下说悄悄话。出发吧！

2 Section 2

Happy birthday, Leni and Lotti! The twin sisters are giant pandas at Berlin Zoo. For their second birthday, their keepers made them a cake — a cake of ice! It had three tiers（层）, pink and orange, coloured with **beetroot**（甜菜根） and carrot juice. On top sat little flowers carved from carrots. No candles — pandas like presents frozen.

生日快乐，莲妮和洛蒂！这对双胞胎姐妹是柏林动物园的大熊猫。她们两岁生日时，饲养员为她们做了一个蛋糕——一个冰做的蛋糕！它有三层，粉粉的、橙橙的，是用甜菜根和胡萝卜汁染的颜色。顶上还坐着用胡萝卜雕出来的小花。没有蜡烛——熊猫就喜欢冻起来的礼物。

The sisters wasted no time. They **nibbled**（小口啃） the carrot flowers, **pawed**（用爪子拨弄） at the ice, and chased each other around the garden. The crowd erupted in cheers; the cameras clicked and clicked. The children at the glass had eyes round as saucers.

姐妹俩一分钟都没耽误。她们小口啃着胡萝卜花，用爪子拨弄冰块，还在园子里你追我赶。人群爆发出欢呼声，相机咔嚓咔嚓响个不停。玻璃前的小朋友们眼睛瞪得像碟子一样圆。

At the start, the twins were tiny — born blind, almost hairless, small enough to sleep in a keeper's hand. Leni weighed just one hundred and thirty-six grams — about as much as an apple! Today, each sister weighs more than fifty kilos. Their parents, Meng Meng and Jiao Qing, came from Chengdu（成都）, China — the second pair of panda twins ever born in Germany（德国）.

最开始的时候，双胞胎小得不得了——出生时眼睛看不见，几乎没有毛，小到能在饲养员的手心里睡觉。莲妮只有一百三十六克——差不多一个苹果那么重！如今，姐妹俩每个都超过五十公斤了。她们的爸爸妈妈梦梦和娇庆来自中国成都——这对双胞胎是德国出生的第二对大熊猫双胞胎。

Every panda birthday is a party for **conservation**（自然保护）: pandas were once in great danger, and each healthy baby shows the hard work is working. Happy birthday, Leni and Lotti — may your cake always be cold!

每一次熊猫过生日，都是为自然保护开的一场派对：大熊猫曾经处境非常危险，而每一个健康的熊猫宝宝都在告诉世界——保护它们的努力没有白费。生日快乐，莲妮和洛蒂——愿你们的蛋糕永远冰冰凉凉！

3 Section 3

Now tiptoe into the forest. Above the ground, birds sing among the leaves; below the ground, something amazing is happening. Almost every tree is plugged into a secret **network**（网络） — not of wires, but of **fungi**（真菌）: tiny threads, thinner than hair, wrapping root tips in soft nets, like little capsules of cotton.

现在踮起脚尖走进森林。地面上，小鸟在树叶间唱歌；地面下，神奇的事情正在发生。几乎每一棵树都接入了一张秘密网络——不是电线织成的网，而是真菌的网：细细的丝线，比头发还细，把树根尖裹进柔软的网里，像一颗颗小小的棉花胶囊。

Through it, trees trade: **fungi** carry water and minerals（矿物质） up, and trees pay with sugar from their leaves. Nobody gets everything, but everybody gets enough. That is a **compromise**（妥协；公平交易） — a fair deal written in sugar and water.

通过这张网，树木做起了交易：真菌把水和矿物质送上来，树木用叶子制造的糖来付款。谁也拿不到全部，但谁都够用。这就是一种妥协——一笔用糖和水写成的公平交易。

Scientists observed the forest for years to determine what else moves below ground. When insects attack one tree, it sends a warning through the **network** — a warning relevant to every neighbour: "Make your leaves bitter — the hungry bugs are coming!" Mother trees turn up the dial and send extra sugar to their **seedlings**（幼苗）.

科学家观察了这片森林好多年，想弄清楚地下还在传递些什么。当昆虫攻击一棵树时，它会通过网络发出警告——这个警告和每一个邻居都息息相关：“把你们的叶子变苦——贪吃的虫子要来啦！”大树妈妈还会把“旋钮”拧大，给自己的小树苗多送一些糖。

Is the forest really "talking"? Not with words — but signals and supplies move from tree to tree, and the forest works like one big family. It sounds almost like justice: the strong help the weak. Next time you hug a tree, remember: under your feet, the forest is **whispering**.

森林真的在“说话”吗？不是用语言——但是信号和物资真的在树与树之间传递，整片森林就像一个大家庭。这听起来几乎像一种公平正义：强壮的帮助弱小的。下次你抱一抱大树时，别忘了：你的脚下，森林正在说悄悄话。

4 Section 4

Here's today's idiom: "**once in a blue moon**." A blue moon is a rare full moon, so this means: very rarely. Listen: my neighbour, Mr. Lee, washes his car **once in a blue moon** — maybe twice a year. But last Sunday it rained all morning — and Mr. Lee washed his car in the rain! "The rain is helping me," he laughed. And you? What do you do **once in a blue moon** — once a year, not once a fortnight?

今天的俚语是“once in a blue moon”（千载难逢）：蓝月亮是一种罕见的满月，所以这个短语的意思是“非常非常难得”。听听这个小故事：我的邻居李先生洗车是千载难逢的事——一年顶多两次。可上周日下了一上午雨，李先生却在雨里洗起了车！“雨在帮我呢，”他笑着说。轮到你啦：你做什么事是千载难逢的——一年一次，而不是两周一次？

5 Section 5

Let's think. The panda twins shared a frozen cake; the forest shared sugar and secrets. Two questions for you. First: if you made a birthday cake for an animal, which animal, and what flavour? Second: if the trees could send you one message, what would they say? Talk about it with your family!

我们来想一想。熊猫双胞胎分享了一块冰蛋糕，森林分享了糖和秘密。现在有两个问题问你。第一：如果你给一种动物做生日蛋糕，你会选哪种动物、做什么口味？第二：如果树木能给你发一条消息，你觉得它们会说什么？和家人聊聊吧！

6 Section 6

> That's all for today, young explorers. Be kind like a mother tree, and sweet like a panda's birthday. See you tomorrow morning!

今天的节目就到这里啦，小小探险家们。要像大树妈妈一样善良，像熊猫的生日一样甜蜜。明天早上见！

🔬 Part 4：长难句深度拆解与练习

经典原句：

When insects attack one tree, it **sends** a warning **through** the network — a warning **relevant to** every neighbour.

保姆级结构拆解：

- When insects attack one tree 是 **when 引导的时间状语从句**，意思是“当昆虫攻击一棵树时”。注意：when 从句里用**一般现在时**（attack），哪怕说的是将来会发生的事，也不用 will——这是 when 从句的铁规矩。
- 主干是 it sends a warning through the network：主语 it（就是那棵被攻击的树）、谓语 sends、宾语 a warning；through the network 是介词短语，交代警告走的“路线”——通过网络。
- 破折号后面的 a warning relevant to every neighbour 是**同位语**：把前面的 a warning 换个说法再讲一遍。其中 relevant to every neighbour（与每一个邻居都相关）是形容词短语，太长了，所以**后置**到名词 warning 后面修饰它——英语里“形容词 + 介词短语”作定语时，习惯放在名词之后。
- 整句逻辑链：**虫子进攻一棵树（when 从句，时间和条件）→ 这棵树发出警告（主干）→ 警告与每个邻居相关（同位语补清这个警告的重要性）**。一句话讲完森林报警的完整过程。

句型练习（练的就是上面拆解的三个知识点）

A. when 从句的时态：用括号里的动词的正确形式补全（when 从句用一般现在时）

1. When insects attack one tree, it _____ a warning through the network. (sends)
2. When spring comes, the seedlings _____ fast in the warm sun. (grow)

B. 同位语与后置修饰：用括号里的词补全

1. It sends a warning — a warning _____ to every neighbour. (relevant)
2. The sisters share one cake — a cake _____ of ice and carrots. (made)

C. 介词与短语动词：用括号里的词补全

1. _____ the network, trees share sugar and warnings. (Through)
2. Mother trees turn _____ the dial and send extra sugar to their seedlings. (up)

D. 翻译练习：把这两句译成中文（不提供译文，自己试着写）

1. When the bell rings, the children run to the garden.
2. A mother tree sends sugar through the network — a gift relevant to every seedling.
